bachelor of science (B.S.), Political science 2019 - 2024
Oau University, Osun state

Certificate, Full Stack Web development 2021 - 2022
Angelar yu, Udemey
65+ hours, The course was taught by the lead instructor at the App Brewery, London's leading in-person programming bootcamp.

WORK EXPERIENCE

E-commerce Website, Full stack Web development January, 2023 - Febuary, 2023
Sweet Sound Ecommerce Website

- Developed the website's front-end using React, HTML, and CSS, and designed a user-friendly interface with a focus on ease of use and functionality.
- Utilized SCSS to create reusable styling elements and improve development efficiency.
- Built the website's back-end using Node.js and MongoDB to create a secure login and registration system and manage product and user data.
- Implemented a shopping cart and checkout process using JavaScript to enable users to add products to their cart and securely purchase items.
- Conducted extensive testing of the website to ensure it was fully functional and optimized for user experience.
- Successfully completed the project on time and within budget.
- Demonstrated proficiency in React, HTML, CSS, SCSS, MongoDB, Node.js, and JavaScript.
- Developed a secure and user-friendly login and registration system, shopping cart, and checkout process.
- Designed an intuitive and aesthetically pleasing interface that optimized user experience.

Portfolio Development, Web development July, 2022 - September, 2022
personal portfolio website

- Designed and developed the website from scratch using React and HTML for structure and layout.
- Styled the website using CSS, Sass, and JavaScript for interactivity and animations.
- Implemented responsive design techniques to ensure the website looks great on all screen sizes.
- Tested the website for cross-browser compatibility and performance.
- Demonstrated a strong understanding of modern web development technologies and techniques.
